

PERFORMER[®]
HP

*PVC and Wood frame
bonding together for
optimum strength*

EXCELLENT DURABILITY

Frame made of wood and PVC ensuring exceptional sturdiness. Stiles are reinforced with steel for added rigidity.

Screen door with extruded aluminum frame and fiberglass mesh for increased service life.

EFFORTLESS OPERATION

Rugged self-lubricating nylon tandem panel rollers ensure easy-sliding patio doors.

SUPERIOR ENERGY EFFICIENCY

Sash panels are co-extruded with dual flex vinyl which surrounds the entire 1" (25.4mm) thick I.G. unit for an optimal seal.

High-performance sill design provides superior water tightness and drainage.

LOW MAINTENANCE

PVC requires minimal maintenance and anodized aluminum is corrosion-proof.

SECURITY COMPONENTS

Optional twin-point mortise lock reduces the risk of break-ins.

Options available for added security: exterior key lock cylinder, foot lock, top guard lock and security bar.

STYLE OPTIONS

Garden door with embossed panels

Decorative handles with a choice of 7 finishes

Internal mini-blinds

Sidelites and transoms available

Several glazing and decorator grid options

Sill extensions, nailing fin and brickmould for new constructions

Wide colour selection and available custom paint program to match your decor.
