

Improving your view

**EXTERIOR**Doors

## FEATURES & BENEFITS

- A** The Goldenguard® Sill is a door sealing system, engineered and lab proven to stop air and water leakage. Closing the door activates the perimeter seal and any minor water penetration is harmlessly drained to the outside.
- B** Wood interior frame provides secure anchoring for heavy duty ball bearing hinges.
- C** Compression foam weatherstripping has a soft inner core, wrapped in a tough vinyl skin. It will not shrink or deteriorate with time and it maintains its compression qualities in temperatures to  $-40^{\circ}\text{C}$ . It's recognized as the most effective and permanent weatherstripping available today.
- D** Low maintenance extruded aluminum clad (shown on left) offers a weather resistant, beautiful long lasting exterior finish in a variety of colours. Optional natural pine framing system allows for staining or painting to suit your style.
- E** Unique drainage cap allows water to escape but prevents leaves, debris and insects from blocking the drainage holes.
- F** Frame design is distinct because wood is not exposed at the sill, reducing the opportunity for rotting.

## The DOOR

The Goldenwood® and Goldenclad® Entry Systems are designed with the Goldenguard® sill that eliminates the need for unsightly door sweeps while incorporating an efficient drainage system.

Our wide range of door and sidelite designs combined with our vast selection of fiberglass or steel panel designs and glass options provide virtually unlimited combinations and price ranges to fit any budget.

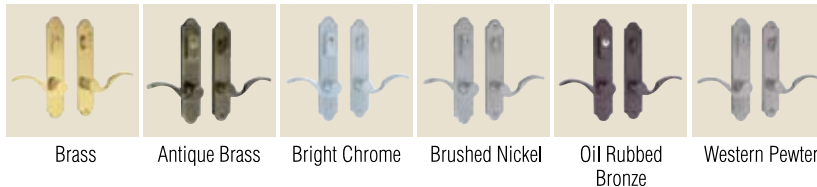

Select the Goldenclad® frame which allows for a choice of exterior aluminum clad finishes with a natural pine interior. The Goldenwood® frame with brick mould allows for a choice of stain or paint grade finishes and no matter what you choose, you can create a personal reflection of your taste and lifestyle.

## DOOR Options

- Available as in-swing or out-swing (*single door only*).
- Choose from a variety of steel or fiberglass slabs.
- Select from 6 standard, 24 optional or unlimited Goldenclad® custom exterior frame colours.
- Multi point locking hardware is available with a variety of trim set finishes.
- Multiple grille options and patterns including Colonial, Victorian and Muskoka.
- Various patterned glass options are available including Rain, Obscure and Glue Chip.
- Variety of decorative glass options and caming.
- Optional exterior brickmould is available.

## HARDWARE Options

Hardware finishes are available when multi point locking hardware is ordered.

Some models available in 7' & 8' heights and custom sizes.

## FEATURES & BENEFITS

- A** The Goldenguard® Sill is a door sealing system, engineered and lab proven to stop air and water leakage. Closing the door activates the perimeter seal and any minor water penetration is harmlessly drained to the outside.
- B** Compression foam weatherstripping has a soft inner core, wrapped in a tough vinyl skin. It will not shrink or deteriorate with time and it maintains its compression qualities in temperatures to  $-40^{\circ}\text{C}$ .
- C** Warm edge technology combined with Intercept™ spacer increases the performance of our Swinging Patio Entry Door. Consider using our Superspacer® spacer option to further reduce the U value and increase the Energy Rating.
- D** Unique drainage cap allows water to escape but prevents leaves, debris and insects from blocking the drainage holes.
- E** Frame design is distinct because all sealants are contained internally, eliminating the need for visible silicones and adhesives.

***Shown with Goldenclad® full lite panel and multi point locking hardware. Complete with a heavy duty sliding screen that features non-glare fiberglass mesh and smooth steel adjustable rollers.***

# Swinging **PATIO ENTRY**

## The **DOOR**

Golden Windows offers a wide range of Swinging Patio Entry Door options designed to provide an unlimited number of combinations to fit any architectural design requirement.

The Goldenwood® and Goldenclad® Swinging Patio Entry Doors feature either a wood frame with brickmould or an aluminum clad frame with steel, fiberglass or aluminum clad full lite panels. These doors allow a large amount of light into your home while still providing an energy efficient product.

## Door **OPTIONS**

- Available in a variety of hinging options including center-hinged.
- Multi point locking hardware is available with a variety of trim set finishes. Required on all 8' door heights.
- Choose from high definition steel panels, smooth or textured fiberglass panels and a Goldenclad® panel (aluminum clad exterior with a natural pine interior).
- Select from 6 standard, 24 optional or unlimited Goldenclad® custom frame colours.
- Multiple grille options and patterns including Colonial, Victorian and Muskokan.
- Various patterned glass options including Rain, Obscure and Glue Chip.
